The table above shows past performance of the ETF from 8 November 2018. Index performance shown prior to 15 June 2017 is simulated based on the current Index methodology. The change of name in the index was to continue the existing methodology when the original index methodology was changed in September 2021. Results are calculated to the last trading day of the month in China and assume immediate reinvestment of distributions. ETF results are net of management fees and costs, but before brokerage fees or bid/ask spreads incurred when investors buy/sell on the ASX. Returns for periods longer than one year are annualised. Past performance is not a reliable indicator of current or future performance which may be lower or higher.
