The table above shows past performance of GOAT from 7 September 2020. Effective 19 June 2023 GOAT's reference index changed from the Morningstar® Developed Markets ex-Australia Wide Moat Focus Index™ ("old index") to the Morningstar® Developed Markets ex-Australia Wide Moat Focus Select Index™ ("new index") with change to the index methodology. Index\* includes the old index performance from 7 September 2020 and the new index performance from 19 June 2023 onwards. The current index performance shown prior to its launch date on 10 May 2023 is simulated based on the current index methodology. Results are calculated to the last business day of the month and assume immediate reinvestment of dividends. ETF results are net of management fees and costs, but before brokerage fees or bid/ask spreads incurred when investors buy/sell on the ASX. Index performance excludes cost of investing in the ETF. Returns for periods longer than one year are annualised. Past performance is not a reliable indicator of current or future performance which may be lower or higher.

### Key risks

An investment in the ETF carries risks associated with: ASX trading time differences, financial markets generally, individual company management, industry sectors, foreign currency, country or sector concentration, political, regulatory and tax risks, fund operations and tracking an index.
